PROFESSIONAL SUMMARY

Highly motivated Computer Science undergraduate with expertise in Java, Python, SQL, Object-Oriented Programming, Data Structures & Algorithms, and Machine Learning. Experienced in designing and developing intelligent software applications using modern technologies. Passionate about software engineering, backend development, and continuous learning. Looking for an opportunity to apply technical knowledge and problem-solving skills to deliver innovative and high-quality software solutions.

EDUCATION

MALLA REDDY ENGINEERING COLLEGE FOR WOMEN

Maisammaguda, Medchal malkajgiri

Bachelor of Technology in Computer Science and Engineering ,

(GPA: 9.20) August 2023 – May 2027

ACADEMIC PROJECTS

Bone Tumor Detection Using Deep Learning and X-Ray Images

Aug 2025 – Nov 2025

- Developed a Bone Tumor Detection System using Machine Learning and Python to classify X-ray images as tumor or non-tumor.
- Implemented image preprocessing and feature extraction techniques using OpenCV and NumPy to improve model accuracy.
- Trained a TensorFlow/Keras model for tumor classification.
- Built a Streamlit interface for real-time prediction

Machine Learning-Based Stock Price Prediction System

June 2024 – Nov 2024

- Built a Stock Price Prediction system using Python and Machine Learning to analyze historical stock market data and identify patterns.
- Performed data collection, preprocessing, and exploratory data analysis using Pandas and NumPy to prepare datasets for modeling.
- Implemented machine learning algorithms to forecast future stock price trends based on time-series data.
- Developed an interactive Streamlit dashboard to visualize stock data, model predictions, and market trends.

RESEARCH INTERESTS

- Java, Python, Machine Learning, Deep Learning ,Artificial Intelligence,Data Analytics.

SKILLS

Languages: Java, C, python , Full stack development

Tools: Git, VS Code, Github.

Database: MySQL

Concepts: Data Structures and Algorithms, Machine Learning.

CERTIFICATIONS

- Oracle:DevOps Professional
- Cisco:Networking Essentials, JavaScript, C advanced, Python Essentials, Cyber security.
- Infosys:Data Analysis with Python, Artificial Intelligence
- Elevate Labs: SQL developer
- Architecture Job Simulation – AWS.
